

## Compete Challenge

We are often asked to compare ExchangeDefender with other solutions on the market. When you consider the scope of both the product features, organization that stands behind it and the pricing ***there is no simply no comparison.*** But we encourage you to try:

Features	ExchangeDefender	Others
Truly brandable, even with your own custom SSL certificate & URL	✓	
AntiSPAM engine that you don't have to train or manage	✓	
Six different commercial antivirus vendors scanning each email	✓	
Secure web portal, Outlook plugin and Desktop alert suite	✓	
Daily and Intraday email SPAM digest reports	✓	
Business continuity powered by enterprise class Microsoft Exchange 2007 with familiar Outlook Web Access	✓	
Year of business continuity archiving of all inbound and outbound mail provided free of charge	✓	
Simple and secure web file sharing with generous quotas	✓	
Collaboration suite with library management & 1GB uploads	✓	
No per-user licensing or complex account management	✓	
Policy based transparent SMTP encryption that doesn't require recipients to install software	✓	
On-demand encryption of email as simple as putting [ENCRYPT] in the subject	✓	
Free Compliance enforcement and Compliance Archiving	✓	
Storage priced at \$2/GB no matter how long you want to keep your emails	✓	
Agent-based web filtering to secure web traffic	✓	
Policies enforcing which sites users should not be browsing	✓	
Customized schedules and custom URL blocklists per user	✓	
Full integration with Autotask and ConnectWise, offering spam statistics, billing and configuration updates and even outsourced support.	✓	
Multiple data centers, network feeds and servers	✓	
24/7/365 phone and web based support with SLA	✓	
Current SAS 70 Type II audit covering security and process management	✓	
Product name that doesn't start with "E"!		✓

Compare your solution and you'll see that ExchangeDefender comes out on top.
